As a life-long resident, Ryan Rients knows that the Sioux Falls metro area has unlimited opportunities for those that take advantage of the area's low unemployment, low crime rate, high education standards, stable real estate industry, friendly banking atmosphere and progressive, business-friendly attitude. Ryan's passion for the community and its continued growth led to a natural partnering with the Dunham Company, an organization known for its commitment to development and for providing investors (both large and small) with the opportunity to enjoy the economic benefits afforded by real estate investing.

Ryan received his South Dakota real estate license in early 2011 and has "hit the ground running", raising funds for new development projects, introducing novices to the world of real estate investing, and envisioning new development opportunities...all while also offering commercial real estate brokerage services to clients, including tenants, landlords, buyers and sellers. Ryan's association with the Dunham Company adds another layer of expertise and passion to the company's commercial brokerage and development teams.

But life isn't all about work! Ryan is active in a number of community organizations (including the El Riad Shrine, the YMCA, and Safari Club International), with industry groups (including the REALTOR® Association of the Sioux Empire, South Dakota Association of REALTORS® and the National Association of REALTORS®), with his vast network of friends and business associates, and enjoys spending time with his wife Bridget and two (beautiful!) children.

Ryan's goal is to help YOU reach YOURS! Contact Ryan at RRients@DunhamCompany.com or 605-330-9422.
